NAMRATA INGALE

B.Tech – Information Technology

Mob: 8605122470 | Email: ingalenamrat101@gmail.com | Salshingi, Maharashtra
LinkedIn: linkedin.com/in/namrata-ingale-8ba31838a | GitHub: github.com/NamrataIngale07

PROFILE

Information Technology student focused on Software Development and Data Structures & Algorithms. Interested in building practical web-based solutions and strengthening problem-solving skills through consistent coding practice. Currently working with Java, C, C++, HTML, CSS, JavaScript, DBMS, and DSA, with a strong interest in collaborative technical projects and continuous learning.

EDUCATION

RCPIT, Shirpur 2025 – Present

B.Tech in Information Technology CGPA: 7.8

N.H. Ranka High School, Bodwad

HSC: 81%

SSC: 55.50%

TECHNICAL SKILLS

Programming	Java, C, C++
Web Development	HTML, CSS, JavaScript
Core Areas	Data Structures & Algorithms, Problem Solving

PROJECTS

Digital Visitor Management System for College (Semester Project)

- Developing a web-based system to replace manual visitor registers by recording college visitor entries digitally and keeping visitor data organised.
- Frontend built with HTML5, CSS3 and JavaScript, with Firebase used as the backend.
- Working in a team of 4 members at R. C. Patel Institute of Technology, Department of IT, gaining practical experience in software development.

PROBLEM SOLVING

CodeChef — 500+ Problems Solved

- Practicing programming problems to strengthen logical thinking, algorithmic reasoning, and implementation skills.
- Consistently developing problem-solving ability through regular coding practice.

AREAS OF INTEREST

- Software Development
- Web Development
- Data Structures & Algorithms

CURRENTLY LEARNING

Web Development — Learning and practicing HTML, CSS, and JavaScript while building practical web pages and improving my understanding of connecting frontend interfaces with backend and database functionality.
